Cities are not required by federal or state laws to administer pre-employment/annual medical examinations or physical ability tests for firefighters or police officers. Even the Occupational Safety and Health Administration Respiratory Protection Standard does not require a complete medical examination for firefighters, but does require a medical questionnaire, medical screening, and fit test to determine if a firefighter can wear a respirator.

Cities may administer medical examinations or physical ability tests so long as the tests do not have an adverse impact on a protected class (42 U.S.C., Section 2000 e-(h)). A protected class would be persons protected by the Federal Civil Rights Act by virtue of their age, race, color, religion, sex, or national origin or the Americans with Disabilities Act.

The National Fire Protection Association (NFPA) develops consensus standards relating to aspects of the fire service. These consensus standards are not law, but they are a nationally recognized standard that outline best practices. More specifically, NFPA 1582 Standard on Comprehensive Occupational Medical Program for Fire Departments sets a framework for pre-hire and incumbent members of the fire service.

Your fire department has recognized the significant impact your job places on your health, and has opted to participate in an occupational program to ensure all employees are evaluated on an annual basis for changes to healthcare baselines.

Consent for Evaluation and Screening Services:

This history & review does not substitute for routine health care or a periodic health examination conducted by your primary medical provider. The physical examination and screening services are being conducted for occupational purposes only. I certify that all the information I have provided on this form is complete and accurate to the best of my knowledge. I hereby consent to Worksite Wellness Occupational Health Services, LLC performing pre-placement/annual screening services requested by my prospective/current employer. All information relative to the screening services, will be used and maintained in strict conformity with the law. I authorize release of information within this form to my employer's DER (Designated Employee Representative) or their representative for the purpose of fit for duty clearance as a firefighter. I understand that this authorization will remain in effect until Worksite Wellness Occupational Health Services, LLC receives communication in writing revoking this authorization.
